

About Us

Wycliffe Technologies is a Minority Hispanic woman owned firm made up of two divisions. We began in 2004 as a Construction Management firm and through client requests we later started a second division, known for offering our clients design/build, installation and maintenance services for Electronic Security and Telecommunications Systems. Our headquarters is located in Frederick, MD with a satellite office in Lanham, MD. Our vertical markets include commercial and federal. Whether you are a small business owner, or a large federal agency with offices across the United States we can tailor a user friendly, scalable, cybersecure solution that meets the needs of your organization.

Differentiator

Our solid track record is built upon understanding the client's intent and working as a team to deliver an excellent project. Getting the job done right and having pride in our workmanship is key to our success. Our high quality service, coupled with competitive rates, well qualified, and highly skilled team make Power Comm the right choice.
